Presentation by Patrice with Office of Planning & Community Development (OPCD) regarding the possible expansion of the Aurora-Licton Residential Urban Village that wasn't proposed in the draft 2035 Comp Plan.

- Seattle 2035 - April we expect to have the draft Mayor's plan that will go to council. unclear how council will handle it (committee or full)
- The 1999 Neighborhood plan was not implemented.
- "They" are working on figuring out how to implement neighborhood plan. ? Who is they at the City that are working on this ?
- Plenty of zoning capacity, so why expand the urban village? That's not only what urban villages are about, "they are about linking land use with transit"
- Guide growth to areas within a 10 minute walk of frequent transit (access to 2 hubs), in this case the bus stop at 85th & Aurora. E line one of best in city
- SDOT and DPD did a study of transit/ridership/unclear and it showed high use at 85th and Aurora. ? Can they provide this supposed study?
- More "service was added" along Aurora. ? Really. Community disputes this statement.
- HALA is the policy driver.
- Rob: What does an urban village accomplished besides eliminating parking requirements? No response.
- We need a real conversation about what an urban village is, what its purpose, and how will it be defined in the future land use before considering changes.
- No Urban Village boundaries were drawn, proposed, or agreed whatsoever.
