

AURORA LICTON URBAN VILLAGE

ALUV is the Aurora Licton Urban Village - that's our neighborhood right here! Together, we are an alliance of neighbors, businesses, and organizations advocating for a more vibrant, safe urban village.

Since 1994 when the City of Seattle created the Aurora-Licton Springs Residential Urban Village, our neighborhood has experienced significant increases in residential density but little else has changed.

Our urban village is missing key characteristics such as pedestrian infrastructure, locally-serving businesses, community meeting places, neighborhood design guidelines and well-designed streetscapes to name just a few.

Building a community together takes all of us. Join us at our next meeting on August 11th, sign up for our email list, and follow us on Facebook.
